

MEGA METAL SANAYİ VE TİCARET A.Ş.

ENVIRONMENTAL POLICY

As Mega Metal San. ve Tic. A.Ş., we have established an Environmental Policy that supports our objective of creating value for our future through the importance we place on the environment.

Our Company is committed to:

- Providing products and services in compliance with applicable legislation, without harming the environment, with the aim of leaving a liveable world for future generations,
- Establishing preventive plans, in accordance with applicable legislation, against all potential risks and hazards that may cause environmental harm,
- Adopting the waste management hierarchy by primarily preventing waste generation at source and, where possible, recovering and reusing generated waste in an environmentally beneficial manner in support of a sustainable world,
- Providing all necessary support to establish a corporate culture based on the principle of continuous improvement in environmental sustainability,
- Measuring and reducing our carbon footprint and, accordingly, our impact on climate change,
- Using our country's resources, particularly water and electricity, properly and efficiently, and reducing the consumption of natural resources.

Our Environmental Policy is based on the importance we attach to environmental values and to leaving a liveable world for future generations.
