

MEGA METAL SANAYİ VE TİCARET A.Ş.

QUALITY POLICY

As Mega Metal San. ve Tic. A.Ş., we have established a Quality Policy that supports our vision of building sustainable relationships in copper wire production.

Our Company is committed to:

- Ensuring continuous progress through new systems in line with the principle of continuous improvement and reviewing such systems on an ongoing basis,
- Closely monitoring and ensuring compliance with the requirements of the Quality Management System and all applicable national and international legal obligations,
- Ensuring compliance with our social, economic and environmental responsibilities in line with sustainability principles,
- Maintaining a quality-focused approach across all of our objectives, reflecting the importance we attach to the quality of our products,
- Supporting the development of quality awareness among our employees and the use of high-technology machinery and measurement systems in pursuit of the highest level of quality,
- Maintaining occupational health and safety as our first priority, followed by achieving high-quality production.

Employee satisfaction and motivation are the driving forces behind becoming a preferred company and ensuring that our systems operate continuously and effectively. To sustain this motivation, we embrace corporate governance principles and strive to become an exemplary company.
